

# Bring On the Night

Alan Jackson

It's twilight and the streets light are coming on  
I'm in a stream of cars on this boulevard, headed home  
And I can hardly wait you can make what went wrong today  
Seam right it's been a long hard day so bring on the night  
Bring on the night and pull down the shades  
Lock the world outside and throw the key away  
And turn on the feelings and turn out the lights  
Let's call it a day and bring on the night  
From 9 to 5 it's the same old grind all week long  
And the only thing that keeps sane, is coming home  
When the sun goes down you know how to set things right  
Let's put the day behind us and bring on the night  
Bring on the night and pull down the shades  
Lock the world out side and throw the key away  
And turn on the feelings and turn out the lights  
Let's call it a day and bring on the night  
Let's call it a day and bring on the night
