

Where Will I Be

Golden Earring

Where will I be?
When the sun wont shine anymore
Where will I be?
When the moon wont smile anymore Where will I be?
Where will I be? Maybe theres a place to hide from the frost
A place where life can get lost
Until then the end is near
And the skies will never be clear Where will I be?
When the sun aint shining
Where will I be?
When the moon aint smiling Where will I be?
Where will I be? When the children stop crying
Where will I be?
When the sun comes near flying
Faster than a bird Is this again the birth of the earth?
No place to hide from the warmth
Where the rays can do no harm
Where will I be? When the sun is burning
Where will I be?
When man is yearning for deliverance
Where will I be?
