

I Need You

Foreigner

Selling your soul ain't the right way of givin'
Oh with you I could change
This misguided goal that I've been livin'
Anything, anything, you might need or desire
Just call on me 'cause my heart's on fire And I need you
Do you need me too?
Yes, I need you Many is the time I've cursed the Lord's creations
Ah but you touched my hand, I loved this new sensation
It was very strange, what a change of you I did not tire
So call on me, my heart's on fire Well I need you
Do you need me too?
Yes I need you Yes I need you
And I need you
Yes I need you
Say you need me too Yes I need you
And I need you
Yes I need you
Say you need me too Say you need me too
Say you need me too
Say, say baby
Say you need me too Yes I need you
And I need you
Yes I need you
