Bits and Pieces

Junior Boys

Every bit has its time
Too many pieces to keep over
With every shape and design that won't fit inThat's the best of your peers
If you can make it through the summer
Forget the paint on the walls that dizzying you
There's barely the roomI see it better when the lights are on
I see it better when the lights are on
Just give a second and I'll figure it out, yes I will
'Cause practice is overClick stop [Incomprehensible]
So we know, know how to keep this thing on moving now
We were jammed, cursed so it wouldn't beginFind a space on the floor
Tape down the edges of your waist coat
Remember the words, the lighting cues
It's all up to youI see it better when the lights are on
I see it better when the lights are on
Just give a moment and I'll figure it out, yeah I will
'Cause practice is overI see it, I see it better when the lights are on
I see it, I see it better when the lights are on
I see it, just give me second and I'll figure it out, yes I will
'Cause practice is over
