

# New Future Weapon

Billy Idol

With a 180 miles  
you can press my button to see  
faster than the night fire  
I can make you bleed  
On stealth and undercover  
you dont even know Im there  
I can kill all of you better bewareIt's the dawn of a new future weapon  
Im after your soul  
Im after your soul  
It's surprise speed and violence of action  
Im at the controls  
death at the controlsHigher than a mile my weaponology  
I can take you out babe with pinpoint accuracy  
riding in the raptor  
danger to the max  
shoot you if you're flying by  
the power of my attackIt's the dawn of a new future weapon  
Im after your soul  
Im after your soul  
It's surprise speed and violence of action  
Im at the controls  
death at the controlsLiving in this desert, living in slime  
the air you breath is poisonous fire  
the sounds you hear destroy the tune  
the sounds you hear destroy the... "wow yeah"With a 180 miles  
you can press my button to see  
faster than the night fire  
I can make you bleedIt's the dawn of a new future weapon  
Im after your soul  
Im after your soul  
It's surprise speed and violence of action  
well Im at the controls  
death at the controls  
[3x]Im at the controls  
Im after your soul "yeah"  
"Oh yeeah"  
Im at the controls  
Im after your soul...
