

# I'm Already King (From "A Special Symphony")

Christian Bautista

This is the time  
I have to believe  
No one can take my faith away And Im flying to the night  
Flying to the sky  
And go higher and higher again  
And go higher and higher again Im already king  
In my own empire  
Im already here  
Im already reach my desire  
Uh no one... can take my dreams away And Im flying to the night  
Flying to the sky  
And go higher and higher again  
And go higher and higher again Im already king...  
Im already king... And Im flying to the night  
And Im flying to the sky  
And go higher and higher again  
And go higher and higher again Im already king  
In my own empire  
Im already here  
Im already reach my desire  
Cos.. Im with you
