

# The New Version of You

## Reel Big Fish

When did you quit pulling all of the stops for me?  
And when did your one hundred and ten per-cent  
Become under fifty?  
There you are phoning it in  
Goin' through the motions with an artificial grin  
You say that you're getting better  
You say that you're getting better  
You say you're becoming a better person  
One that isn't so lame  
You say you're becoming a better person  
But I still feel the same  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
If there's one thing I'd like to do  
It's, kill the new version of you  
When did you start wearing all of those clothes to be cool?  
And when did you start using all that slang?  
I can't understand you  
I bet you'd forget to say "I love you"  
If the teleprompter hadn't told you  
You say that you're getting better  
You say that you're getting better  
You say you're becoming a better person  
One that isn't so lame  
You say you're becoming a better person  
But I still feel the same  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
If there's one thing I'd like to do  
It's kill the new version of you  
Who are you? I don't know now  
You got me wonderin' I wonder  
How you got to be so different now  
You say you're becoming a better person  
One that isn't so lame  
Say you're becoming a better person  
But I still feel the same  
I still feel the same  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you  
If there's one thing I'd like to do  
It's kill the new version of you  
It's the new, it's the new, new version of you  
It's the new, it's the new, new version of you

If there's one thing I'd like to do  
It's kill the new version of you
