Stay Forever

Boy Meets Girl

Had a vision of you before you came
And I turned you away, I never will again
Didn't recognize you, didn't hear your name
I feel a lot clearer that I did thenIf you care to try again
You'll find my heart wide open
If I hear you call again
You'll find my heart wide openYou stay forever, forever love
You stay forever, forever loveI understand now, it's me you chose
'Cause I know about love but I've never been this close
You rescued my heart from a lonely road
Of any single soul, I think I love you mostIf you care to try again
You'll find my heart wide open
If I hear you call again
You'll find my heart wide openYou stay forever, forever love
You stay forever, forever loveAnytime, anywhere, soul to soul
I'll be there, you'll find my heart wide openYou stay forever, forever love
You stay forever, forever love
