Number 1 (feat. J'nelle)

2sc

Verse:
Our side was real fine
Until I went to my side
And then I realized
I needed you more
Than I thought. I
Replaced you,
Misused and mentally abused
Cause I was in your head,
But instead I went my way so

Chorus:
Take over.
Wonâ€™t leave you no more
Come closer
You are my number one (repeat)
I need you forever

Verse:
Sometimes you feel blind
Searching and searching for answers.
Move and youâ€™ll find
The rhythm that takes you to a place
Where the melody will flow.
Thatâ€™s where you wanna go.
Honey flowing through ya
Let him take control.

Chorus

Bridge:
Number one make it Number one.
Honey flowing it never done.
Number one make it Number one.
Sweet Sweet feeling is what meh want
