

Night Life

Thin Lizzy

They say that the night life
They say, it ain't no good life
But it's my life I've been a gambler
I've been a thief
And most of my good friends
They don't hold with my belief They say that the night life
They say it ain't no good life
Oh, but buy
You know that it's my life And if you've had troubles
If you've felt them woes
I don't have to tell you
How this whole world is so low Hey now baby
It can drive you crazy
Oh, but baby
Baby, the night life's for me Just one more time
I'll hit the road
And I want to thank you
I want to thank the Lord For that old night life
Some say, it ain't no good life
But baby, baby
There ain't nothing like this night life
