Lusid

Ohgr

when it's getting through
i feel as if the time is coming around
i am finally going through this time in my life
sure let me know i feel as if the time is coming around
i am finally going through my great disastergot divorced with the way i was and i tried to get away
so will you take me out of it for a while i'm a lusid dreamer
will you take me out for a while knock me out cold
will you take me out for a while im a lusid dreamer
take me out in one fell swoop knock me out cold
life is really easy when taken down apart
from up around the center a spiral blown heart
to give it some relation to give in to belief
freedom to the limit the limits set you free
