Saviour & Friend

yfriday

There's no greater sacrifice
Than laying down a blameless life
You became sin for me
My saviour and my friend

An angry cross, a crimson tide
The Son of God there crucified
You became sin for me
My saviour and my friend

You are Holy
King of Glory
Gave Your life for me
My saviour and my friend

Chose to bear my guilt my shame
My darkest thoughts
My spear of pain
You became sin for me
My saviour and my friend

There's no thing that I could give
But live to die and die to live
You became endless grace
That loves me 'til the end
