Part The Waters

New Model Army

We all get what we've got coming to us
The tide flows both ways across the seas
All following through on promises made
The roads are filled with fleeing slaves and refugees - singingPart the waters for meNow this motioning forward will never stop
We're like sharks in the water, if we stop swimming we die
All coming out of the ruins bedraggled and worn
Like a people who stared too long, too long at the sun in the sky - singingPart the waters for meAny god will surely come, deliverance will surely come
On our knees by the stony shore, crack the sky and deliverance will come
Part the waters for me
