Jumping

dominic halpin

Say when you get down, look to your left
When you get up, look to your right
Figure out the puzzle
Make sure the pieces fit tight, fit tightI saidJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooThere is no surefire way baby
It's just the first star you see at night
Don't walk around feeling hazy
If you need a taste take a bite, take a biteSome day they'll catch you when you're walking
Don't you put up no fight
Draw back that look of confusion
Say, you don't believe in straight lines, straight linesI saidJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooThere is no surefire way baby
It's just the first star you see at night
Don't walk around feeling hazy
If you need a taste take a bite, take a biteI saidJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooJumping, jumping all night long
Jump and jump and it's up to you
Jumping, jumping all night long
Jump and jump baby I will tooJumping
Jumping
Jumping
