

# People Used to Dream About the Future

## A Girl Called Eddy

Drinkin' our coffee  
It's a quarter to three  
No one in this place  
Just us and our mistakes  
You in the corner  
That stupid smile on your face  
Tell me is there a way to replace  
All the dreams  
That didn't come true  
Once we were happyOnce we were people  
Who used to dream about the future  
Once we were people  
With stars in our eyesDo you remember when I was your  
'Alice blue gown'?  
And you were the handsome young  
Prince in his crown  
Now the rain hits the roof  
And you realize  
That even your youth has let you down  
Oh don't go cry in your beer  
'Cause it all ends in tears  
Remember when we were happyOnce we were people  
Who used to dream about the future  
Yeah, once we were people  
With stars in our eyesOnce we were people  
Who used to dream about the future  
But where did it all go?  
Where did it all go?  
Where did it all go?When did we stop takin' pictures?  
And when did you lose all your fight?  
And where did you sign?  
Give up and resign  
I never gave up on you  
No, I never gave up on youOnce we were people  
Who used to dream about the future  
Once we were people  
With stars in our eyesOnce we were people  
Once we were people
