Wilbur's Symphony

Dream SMP Musical

I heard there was a special place
where men can go and emancipate
The brutality and tyranny of their rulers
well that place is real you needn't fret
with Wilbur, Tommy, Tubbo, F*ck Eret
It's a big and not blown up L'manburg
My L'manburg
My L'manburg
My L'manburg
My L'manburg
For freedom and for liberty
our nation sought to build on thee
a victory for all under our freedom
Well the darkness came and then it went
we built a home and watched it end
and from the rubble there emerged L'manburg
My L'manburg
My L'manburg
My L'manburg
My L'manburg
with bloodied hands and knees feeble
our people rose like the grand eagle
our empty fields and canals round L'mantree
With sweat and tears, we armed our ranks
we laid foundations in our land
and from every war here up to forever
We sing L'manburg
We sing L'manburg
We sing L'manburg
We sing L'manburg
