

Let's Run

Roger Creager

Oh, we could rock
Or we could bomb
Or we could try
Like super hard
Or we could come
Or we could lose
Or we could totally
Totally, totally freak you
I wanna spread my dementia
I wanna knock it off the line
Give me attention
Every day and every night
We could suck
"They might improve"
We get our grades from
Professor you
Or we could fly

Demystified
Or we could please you
All night
I wanna spread my dementia
I wanna knock it off the line
Give me attention
Every day and every night
Don't want no crusty bullshit
No crap or attitude
Just wanna get electric tonight
You know with you, you, you, you
Or we could
Or we could
Or we could
Or we could fail, fail, fail
So?
