About Last Night

Vitamin C

Morning came before I knew
Just what I had gotten into
Glanced around in the bright sunlight
I really couldn't care if it was wrong or right
Love can only break your heart
But you're never gonna know
Unless you give it a start
Sometimes, you gotta let yourself go
Was it good for you? About last night
Or was it way too soon? You didn't put up a fight
Was it good for you? I won't ask again
See, about last night, I wanna do it again
I know sometimes it's worth the wait
I'm not the type to hesitate
No more feelings all night long
I really couldn't care if I came on too strong
Experience just says it all
You gotta make a move
Just as soon as you fall
Oh, sometimes you gotta let yourself go
Was it good for you? About last night
Or was it way too soon? You didn't put up a fight
Was it good for you? I won't ask again

See, about last night, I wanna do it again
Was it good for you? About last night
Or was it way too soon? You didn't put up a fight
Was it good for you? I won't ask again
See, about last night
Was it good for you? About last night
Or was it way too soon? You didn't put up a fight
Was it good for you? I won't ask again
'Cause about last night
Was it good for you? About last night
Or was it way too soon? You didn't put up a fight
Was it good for you? I won't ask again
'Cause about last night, I wanna do it again
Was it good for you?
Or was it way to soon?

Was it good for you?
See, about last night
Was it good for you?
Or was it way too soon?
Was it good for you?
See, about last night
