

Sugar Cube

Porcelain and The Tramps

Look into the light
The words standing out
The disco ball is going around
I say "Nooo" I say "Ohhh"
The sun's shining bright
I twinkle in your eye
If you know what's right
Pull a wish from the sky
Say "Nooo" I say "Ohhh" I think about you
Can't dream without you
I always want more
Trance to the dance tune
Under a full moon
And a reason to...I think you know
Tonight's the night
I'm gonna touch you, taste you, tease you, show you
What I've been waiting for (yeah, yeah)
Sugar cube
Tonight's the night
I'm gonna make you, take you, face you, shake you right down to dance floor On the break down
On the break down What comes up must come down
Potential on the ground and the place shut down
Say "Nooo" I say "Ohhh"
The time has come
And we're not done
We'll stay up all night until we see the sun
Say "Nooo" I say "Ohhh" I think about you
Can't dream without you
I always want more
Trance to the dance tune
Under a full moon
And a reason to...I think you know
Tonight's the night
I'm gonna touch you, taste you, tease you show you
What I've been waiting for (yeah, yeah)
Sugar cube
Tonight's the night
I'm make you, take you, face you, shake you right down to the dance floor I think you know Tonight's the night
I'm gonna touch you, taste you, tease you show you

What I've been waiting for (yeah, yeah)
Sugar cube
Tonight's the night
I'm make you, take you, face you, shake you right down to the dance floor
Always wanting me to say
You'll always want me
Always want me
Always wanting me to say
Always wanting me to say
You'll always want me
Always want me
Sugar cube
Tonight's the night
I'm gonna make you, take you, face you, shake you right down to dance floor
I think you know
Tonight's the night
I'm gonna touch you, taste you, tease you show you
What I've been waiting for (yeah, yeah)
Sugar cube
Tonight's the night
I'm gonna make you, take you, face you, shake you right down to dance floor
