Lava Lamp

The Swedes

In the half light of the evening
I can almost see you glow
Can tell by the way you're moving
Time may be right to let you knowYou got many colored halo
The body of Venus, a babe rainbow
And if I come on any closer
I might fall into your silhouetteBut the shape of things
To come is constantly changing
So let it, so let it, so let it flowLa la la la lava lamp
La la la la lava lampIndigo, violet and blue
Can we meet where the edges blur?
'Cause I am coming at you
Like a bug eye heading for the burnTruth is, I can't stay away
No, I wanna let you light my volcano
And maybe it's just in my imagination
But you never know'Cause the shape of things
To come is constantly changing
So let it, so let it, so let it flowLa la la la lava lamp
I'd love to turn you on
La la la la lava lamp
I'd love to turn you onLa la la la lava lamp
I'd love to turn you on
La la la la lava lamp
I'd love to turn you onSo let it, so let it
So let it, so let itLa la la la lava lamp
I'd love to turn you on
La la la la lava lamp
I'd love to turn you onLa la la la lava lamp
I'd love to turn you on
La la la la lava lamp
I'd love to turn you on
