

Champagne Problems

[Meghan Trainor](#)

I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems Can't believe my Uber's late again
Gon' be late for dinner with my friends
These shoes hurt so bad, can't feel my toes
And I forgot my jacket back at home But I can't complain at all
(Life's too short for that)
(Life's too short for that) no, I can't complain at all
(Life's too short for that) I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems My new Wi-Fi doesn't seem to work
No, no internet, that's the worst
And my iPhone always seems to die
Right before I hit reply But I can't complain at all
No no, life's too short for that
(Life's too short for that) no, I can't complain at all
(Life's too short for that) I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems If you got champagne problems, drink them up
If you got champagne problems, drink them up
If you got champagne problems, drink them up
If you got champagne problems, drink them up I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems
I got champagne problems, champagne problems
So pour a glass and let's drink up all my champagne problems Let's drink up all my champagne problems
My Champagne problems, my Champagne problems
My Champagne problems
