

Change Me

Ruben Studdard

How would you like it if I talked about your skin
The way you wear your hair?
Would you like if I talked about your butt or once a month
Turned into someone that was hard to love? How would you like it if I didn't like your smoke
Didn't like your polish you be wearing on your toes?
If I didn't like your necklace or what you cooked for breakfast
Would I be wrong, would I be wrong? Why you wanna change me?
Flip all the thangs that really make me
The way that I am used to make you happy
Baby, why you wanna change me? And girl, you used to like your big old teddy bear
And girl, you used to let me get it anywhere
Now baby, it's crazy
Why, why, why you wanna change me? Now what if all I did was pick apart your friends?
'Cause they ain't got no ends
What if I talked about your face in the morning?
'Cause we know that you ain't cute in the morning What if I criticized the way that you be eating?
And when you sleeping you be doing that heavy breathing
What if I was at or about your house creeping
Would I be wrong, would I be wrong? Why you wanna change me?
Flip all the thangs that really make me
The way that I am used to make you happy
Baby, why you wanna change me? And girl, you used to like your big old teddy bear
And girl, you used to let me get it anywhere
Now baby, it's crazy
Why, why, why you wanna change me? We used to love breaking up
Knowing well be together again
And we used to love the arguments
'Cause we making love by the end, girl How you gonna change everything in return?
Turn it all around
'Cause I don't wanna go if it ain't gonna be the same
If it ain't broke then why you wanna change? Why you wanna change me?
Flip all the thangs that really make me
The way that I am used to make you happy
Baby, why you wanna change me? And girl, you used to like your big old teddy bear
And girl, you used to let me get it anywhere
Now baby, it's crazy
Why you wanna, why you wanna change me? Tell me why you wanna change?
Why, why, why you wanna change me?
Why you wanna change me?

Why baby, tell me why, girl, why?
Baby, tell me why you wanna change me? Why you wanna change me?
Flip all the things that really make me
The way that I am used to make you happy
Baby, why you wanna change me? And girl, you used to like your big old teddy bear
And girl, you used to let me get it anywhere
Now baby, it's crazy
