

# Teakbois

## Anderson Bruford Wakeman Howe

Jump out this next world  
Is gone overground  
That sky is ecstasy dancin' My child, my woman  
My daughter, my son  
Together planning to party Just wait for me  
Out in the street  
Teakbois in everywhere Dancing with you  
We're coming through  
Somehow we'll all be there This time is surely  
Come once and for all  
We've waited so now  
We are ready Be quick be ready  
Be sure and be smart  
No need the energy wasted I've dreamed of music  
That comes from the heart  
As tho' the eagle has landed Just wait for me  
Out in the street  
Teakbois is everywhere Dancing with you  
We're coming through  
Everyone will be there She smiles, my mind  
Is just blown, I can't stop  
No time is better than now I wake up everyday  
Before the sun is coming up  
Bobby Dread and the kool running The fish to catch, the sea to swim  
They say I gotta life to live  
Bobby Dread and the kool running My music is my only witness  
To my very soul  
Bobby Dread and the kool running So when you need me  
All you have to do is help me, lose control  
Bobby Dread and the kool running They say the world's a stage  
So let me play for you, and you, and you  
Bobby Dread and the kool running It's all I ever in my life  
I really wanted to sing and do  
Bobby Dread and the kool running We form a group, a simple name  
A secret harmony like  
Bobby Dread and the kool running We write our songs, we symphonize  
Some people say they like us  
Bobby Dread and the kool running This summer you couldn't get it
