

Energized

Def Leppard

I'm the rhythm king from
Coast to coast
Shot out the gate first
To the post
My pulse is set on overdrive
Beat cardiac means I'm alive
I get to feed the need for speed
Heat and sweat are what I bleed
Radial philosophy
It's what you feel not
What you see It's dangerous
And Shameless
When I get to look at you
I'm erratic when I'm static
I'm about to overload I'm feeling Energized
Like I've been hypnotized
I'm feeling energized
And I'm in paradise A firestorm identity
It's what I've been hypnotised*
The undisputed number one
Laser fired from a gun
To liberate that's what you need
Heat and spice are what I breathe Insatiable and chemical
And viral beyond animal It's ageless and contagious*
When I get to look at you
I'm erratic when I'm static
I'm about to overflow. (British grammar is marked with *)
