Me & My Man

Chromeo

This is a new sound, we came to get down
Our name is Chromeo and we are in control
This is a new sound, we came to get down
Our name is Chromeo and we are in control
Have you ever felt this way?
Felt the need to get away, well I have, yeah
When the world is out to get you and your friends are all against you
And you're sad
So what do you say? I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
I want to, I need to
Fly away when they are out to get you
You want it, you need it
Look inside and you will find that feeling
Hey my heart is made of stone
My soul is made of songs
My girl is on the phone
But I want to be left alone
It's just this side of me
You think it's irony
I wish you tried to see
That I need someone to set me free
I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
This is a new sound, we came to get down
Our name is Chromeo and we are in control
This is a new sound, we came to get down

Our name is Chromeo and we are in control
And we are in control, and we are in control
And we are in control, and we are in control
I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
I wanna get away
From the problems of the world today
Me and my man on a plane
Fly away to a better place
