

Live Forever

Sixx:a.m.

I will live forever
If you always keep me in your mind
And it doesn't matter, how far I am
If I ever leave you
I am gonna be there by your side
If you ever need me, well here I am
I'm gonna live forever
Don't you ever forget
That all the stars in heaven
Will shine for me
I'm gonna live forever
No never forget
That no one's lost in heaven's eternity

Hold the fire burning
Life was never meant to be the end
There's no way I'm turning, by accident
I don't need to prove it
I'm just ready for another stair
Though my heart is moving, my soul is here
I'm gonna live forever...
In everyone
There's a burning flame
Goes on and on
Do remember and I'll stay
I'm gonna live forever...
