Losing Sleep

Asherel

Be the winner you always were
Don't you, don't you dare lose
Be the humble girl you are
Don't cry in strangers cars
La, la goodnight
I'm awake and I've been losing sleep
I've been fighting all my demons
I've been getting weak 'cause I've been
Trying, trying, trying to be anything other than me
Be the star you know you are
Don't you, don't you dare fail
You can own that balance beam
Two steps forward towards make believe
La, la goodnight
I'm awake and I've been losing sleep
I've been fighting all my demons
I've been getting weak 'cause I've been
Trying, trying, trying to be anything other than me
I'm awake and I've been losing sleep
I've been fighting all my demons
I've been getting weak 'cause I've been
Trying, trying, trying to be anything other than me
What a silly dream, oh silly, silly me
To think I had a handle on this
When I know, I know I lose, I know, I know I lose
We both know, we both know that
I know, I know I lose, I know, I know I lose
We both know, we both know that
I'm awake and I've been losing sleep
I've been fighting all my demons
I've been getting weak 'cause I've been
Trying, trying, trying to be anything other than me
Anything other than me, anything other than me
Anything other than me
I'm awake and I've been
