

Cold and Blue and Lifeless

Bayside

Do you know that every night
I think of ways to get back at you, sneak into your room
Put a pillow over your face, suffocate you
Rip into your chest and tear out your heart
To see if you bleed like I do, I bet you do Trippin' over my words
And I ain't trippin' on me, isn't that funny?
Couldn't you just laugh until you choke?
I wish you would so your face could match your eyes
Cold and blue and lifeless, how did I ever fall for you? Do you know that every night
I think of ways that I can spite you
Call me when you're dead
So you can finally live with yourself
Consider this a favor, consider this Trippin' over my words
And I ain't trippin' on me, isn't that funny?
Couldn't you just laugh until you choke?
I wish you would so your face could match your eyes
Cold and blue and lifeless, how did I ever fall for you? To see if you bleed like I do Trippin' over my words
And I ain't trippin' on me, isn't that funny?
Couldn't you just laugh until you choke?
I wish you would so your face could match your eyes
Cold and blue and lifeless, how did I ever fall for you? Trippin' over my words
And I ain't trippin' on me, isn't that funny?
Couldn't you just laugh until you choke?
I wish you would so your face could match your eyes
Cold and blue and lifeless, how did I ever fall for you?
