

Scarred for Life

RF7

Some people ask
why I never smile
Some people talk
about suicide
Some people ask
why my heart's so cold
All I can say
is I just don't know

Inside my brain
I'm programmed for hate
Somewhere in time
the pain was too great
Something I saw
maybe something I felt
Turned my life
into a trip through hell

Scarred for Life, Scarred for Life
I can't care, I been Scarred for Life

Some people ask
why I never cry
Some people ask
why I don't try
Some people ask
why I can't love
I'm not sure
what I'm made of

Inside my soul
I've been left for dead
Mental block
somewhere inside my head
Something I saw
maybe something I felt
Turned my life
into a trip through hell
