

# For My Next Trick, I'll Need a Volunteer

Warren Zevon

Well I can saw a woman in two  
But you won't want to look in the box when I am thru  
I can make love disappear  
For my next trick I'll need a volunteer I can pull a rabbit out of a hat  
I can pull it out but I can't put it back  
I can make love disappear  
For my next trick I'll need a volunteer  
Step right up, for my next trick I'll need a volunteer  
For my next trick I'll need a volunteer  
Step right up, for my next trick I'll need a volunteer It's lonely up here when the tricks have been played  
And the spotlight has faded  
And the plans that we made have fallen apart  
It's lonely as hell and there's no magic spell for a broken heart Put me in chains and I will escape  
Better not wait up 'cause I might be late  
I can make love disappear  
For my next trick I'll need a volunteer Well it's lonely up here  
When the tricks have been played and the spotlights have faded  
And the plans that we made have fallen apart  
It's lonely as hell and there's no magic spell for a broken heart I can saw a woman in two  
But you won't wanna look in the box when I am thru  
I can make love disappear  
For my next trick I'll need a volunteer  
Step right up, for my next trick I'll need a volunteer  
For my next trick I'll need a volunteer  
Step right up, for my next trick I'll need a volunteer
