Database

Blood Orchid

Traffic, im late
Work a shitty job that i hate
Paycheck, misplaced
I wanna stab my boss in his face

Filled, with rage
I feel just like a rat in a cage
Love, escape
You're just another bad database

Sick, of this game
Every day they mispronounce my name
Please, say it right
Before i introduce you to my knife

I, cant wait
Just pack up all my shit and leave this place
Love, escape
You're just another bad database
