

Feels So Good

Jamiroquai

I'll fight for the Moon, Mars, Jupiter
And outer galaxy, Alpha Centauri Feels good
I'm stranded on a spaceship hideaway
And something makes me think I'm here to stay
I'm so happy where I am Feels good
I've journeyed to the other atmospheres
And every breath I take just makes it clear
I'm holding Heaven in my hands
It's automatic baby and it Feels good
When it feels so good
Feels good
When it feels so good Feels good
These extra-sensory sensations
Are causing me some complications
Electrostatic information Feels good
I'm playing with a pleasure trafficker
Arriving soon intergalactica
I'm holding Heaven in my hands
It's automatic baby and it feels good Feels good
Feels good
Feels good Feels good
When it feels so good
Feels good
When it feels so good Feels good
When it feels so good
Feels good
When it feels so good Feels good
Feels so good
Feels so good
Feels so good Feels good
Feels so good
Feels so good
Feels so good Feels good
I'm stranded on a spaceship hideaway Feels good
When it feels so good
Feels good
When it feels so good Feels good
When it feels so good
Feels good

When it feels so good I'll fight for the Moon, Mars, Jupiter Feels good

When it feels so good

Feels good

When it feels so good Feels good

When it feels so good

Feels good

When it feels so good
