

When I Was Six

Lodger

When I was six I had a girl
When I was twelve I had a girl
When I was twenty I had plenty
Twenty-one I had no one
No one

My body wrecks my mind
My body doesn't fall behind
My body rips my mind
My body doesn't slow behind

When I was young I was told
You get dirty when you get old
The prophesy, it came true so come on over and beat me blue

My body rips my mind
My body doesn't slow behind
My body rips my mind
My body doesn't slow behind

My body rips my mind
My body doesn't slow behind

My body rips my mind
My body does it from behind
