Hurricane

NEEDTOBREATHE

In the fallout now
It's hard to feel like we can turn around
With the damage done
It's hard to see how far we've comeWe could not be proud
Of where our feet have walked along the ground
In the silence now
We play it back and forwards againThere's a sound in our guiltiness
It's a warning bell that rings
It's a call, so our loneliness
We can't seeWe roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
We've all been warned but we still chose to stayI can't believe it now the time has come
I can't believe it now the time has comePlay the victim here
You know it's nothing but your pride and fear
But the more you hurt
The more you love the one you wereThere's a sound in our guiltiness
It's a warning bell that rings
It's a call to our loneliness
We can't seeWe roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
Yeah, we've all been warned but we still chose to stayI can't believe it now the time has come
I can't believe it now the time has comeIn the light of the mourning
Can we change what we felt and heard?
Can we turn it into the glory?
Break the paths of our fathers before usThough we stand on the outside
We will find what we once believed
And will crawl our way to the clear skies
Standing up we are, standing up we areOh, we roll the dice, we play like fools
Plead with time to change the rules
It's like a hurricane is coming our way
Yeah, we've all been warned but we still chose to stayI can't believe it now the time has come
I can't believe it now the time has come
