

The Cataract (acoustic)

[Birdwu](#)

Keep your eyes as souvenirs why i cant say easy to see im begging for a cure
Standard oath pledge to you, i feel so tired and amused, aww struck and condemned from under
Now you know you know, Now you know you know I've seen better days hereNever felt this lonely innocent
crazy and delusionally spent
The cataract is fully in effect pinnacle anti acids all thats left of youAnd your feeling shut down, only second
best it seems i've received what the devil left behind
I morose and fallible, predict a seldom remedy through consequence of failing it all
Now you know you know, Now you know you know i've seen better days hereChorusWith your hope you'd
settle down but i've fallen off the edge my cigarette is gone, goodnightChorus
