Under Construction

Solange Knowles

Brick, brickBrick by brick
You know you build up a pretty big bridge
Now don't you tell me SOMETHING
All over againCaution here
Now I'm scared I may just hit my head
You're taking me step by step
I'm falling againYou got me under constructionWalls
Wall by wall
You felt this home barely hanging at all
But I know you won't let me fall
All over againNail by nail
I hear you pushing, you pushing me well
You know when I'm going through hell
You feel me againYou got me under construction
