

Loving You, Loving Me

[Dave Barnes](#)

It's just me and you and the moonlight baby
I'm staring at you staring at the stars tonight
The sun that fell so hard it disappeared and you and I can start this evening right
What I say out loud is only half of what's in my head
Tonight I would rather look at you instead I can't get enough of you, and everything little thing you do
You, the night, and this candlelight is all I really need
It's loving you loving me Dogs are barking in the yard a few feet away and TV in the den is on CNN
Seemed to me these clouds were showing rain but nothing can change this mood I'm in
What I say out loud is only half of what's in my head
Tonight I'd rather look at you instead I can't get enough of you
And every little thing you do
You the night and this candlelight is all I really need
Loving you loving me I've been all day waiting for you to come back home now I appreciate that i'll never be
alone baby
What I say out loud is only half of what's in my head
Tonight I'd rather look at you instead And I can't get enough of you
(Girl, you're such a lady)
And every little thing you do
(Everything, baby)
You the night and this candlelight is all i really need
Cause I'm loving you loving me I've been all day waiting for you to come back home now I appreciate the fact
that i'll never be alone baby. What I say out loud is only half of what's in my head
Tonight I'd rather look at you instead And I can't get enough of you
(Girl, you're such a lady)
And every little thing you do
(Everything, baby)
You the night and this candlelight is all i really need
Cause I'm loving you loving me Loving you loving me
Loving you loving me
Let's get together and start a family
Loving you loving me baby
Loving you loving me baby you know I'm never gonna go away
Loving you oh loving me oh baby
