

Manowar

\$tinkworx

We met on English ground
In a backstage room, we heard the sound
And we all knew what we had to do We called the high command
Requested leave to make a stand
And in the field we grew and we all knew Soon the time would come for us to fight
Destination now in sight Oh, Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more Our fight will never end
So we called on partisans
To raise your hands and take our stand Look sharp when duty calls
Where we march cities fall
And the strong survive and take our side Now the time has come for us to fight
Target waiting in our sight Oh, Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more Manowar
Born to live forever more
The right to conquer every shore Manowar
Born to live forever more Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more Born to live forever more
The right to conquer every shore
Manowar
