

The Secrets That We Keep

Sara Evans

Across a crowded room
I can't keep my eyes off you
You take my breath away
Looking at me now
I know what you are thinking about
You are thinking about the way
You woke me up this morning
And made sweet love to me
Oh, baby, I love the way you touch me
You know my body so well
You do much more to love me
Till I'm overwhelmed
Wrapped up inside of you
Is where I want to be
'Cause nobody knows, nobody knows
The secrets that we keep
Once we get inside these four walls
All the hesitation falls
We can't wait no more
As you help me get undressed
You don't have to guess
Baby you know what I want
I want to love you till the sun comes up
Till I am sure you are satisfied
Oh, baby, I love the way you touch me
You know my body so well
You do much more to love me
Till I'm overwhelmed
Wrapped up inside of you
Is where I want to be
'Cause nobody knows, nobody knows
The secrets that we keep
Oh, Wrapped up inside of you
Is where I want to be
'Cause nobody knows
Nobody knows, nobody knows
Nobody knows
The secrets that we keep
