Name

Rancid

(repeat 3x)
You don't know my name
Man you don't know my namePaint a number on my head
Work me 'til I'm dead
I can't believe i've wasted
All these years i've tastedA million days and nights all this pain and struggle
All for what I ask all the hate and troubleYou don't know my name
Man you don't know my namePunch drunk from the punch clock
Opportunity never gonna knock
No more blue collar
All the unions gettin' smallerA million nights and all the pain and struggle
All for what I ask all the hate and troubleYou don't know my name
Man you don't know my name
