

# The Last Time

## Number One Gun

This is the last time  
That you will pass by  
And I know that you will always be  
inside my heart forever now  
I want you to show me how You breathe on me  
I've been running all this way  
What a simple thing to say  
You breathe on me  
I can hear you  
I can see you This time
