

Sometimes

My Bloody Valentine

Close my eyes, feel me now
I don't know how you could not love me now
You will know with her feet down to the ground
Over there and I want true love to grow
You can hide, oh no, from the way I feel Turn my head into sound
I don't know when I lay down on the ground
You will find your hand down hurts to love
Never cared and the world turned hearts to love
We will see, oh now, in a day or two You will wait, see me go
I don't care when you're head turned all along
You will wait when I turn my eyes around
Overhead when I hold you next to me
Overhead to know the way I see Close my eyes, feel me now
I don't know maybe you could not hurt me now
Here alone when I feel down too
Over there when I await true love for you
You can hide, oh, now the way I do
You can see, oh, now oh, the way I do
