

# Temporary Fix

## One Direction

[Verse 1: Niall]

Saw your body language and I know how you're feeling  
You look like the kind of girl who's tired of speaking  
Standing with somebody but he doesn't know what you like  
You caught my attention, you were looking at me first  
Saw that I can teach you, waking up in my t-shirt  
If you're not into anything right now I can be your vice [Chorus: All]

All you need to know is

You can call me

When you're lonely

When you can't sleep

I'll be your temporary fix

You control me

Even if it's just tonight

You can call me

When you feel like

Having a good time

I'll be your temporary fix

You can own me

I'm always what you like

Let me be your good night [Verse 2: Harry]

Tonight I'm on your lips and I feel like I'm locked in  
There's a million eyes, I don't care if they're watching  
Your body is saying everything, I don't have to read your mind  
Feel you on my neck while I'm calling a taxi  
Climbing over me while I climb in the backseat  
Now we're taking off, now we're taking it off tonight [Chorus]

All you need to know is

You can call me

When you're lonely

When you can't sleep

I'll be your temporary fix

You control me

Even if it's just tonight

You can call me

When you feel like

Having a good time

I'll be your temporary fix

You can own me

I'm always what you like  
Let me be your good night[Bridge]  
You can roll in the darkness  
Let me touch you where your heart is  
And if you're feeling the weakness  
Well I told you baby that you can call me  
I'll be your temporary fix  
You can call me[Chorus]  
You can call me  
When you're lonely  
When you can't sleep  
I'll be your temporary fix  
You controll me  
Even if it's just tonight  
You can call me  
When you feel like  
Having a good time  
I'll be your temporary fix  
You can own me  
I'm always what you like  
Let me be your good night
