

# Roll Right Up

Howard Jones

Will the moon keep shining on?  
Can you stop the world from turning?  
Stop running away from things that might fail you  
You have what you need, you are the one You can't hold a person down  
'Cos the truth will find it's opening  
You must take it on the things, you must feel  
We all feel the same, you are the one Roll right up and feel it  
See the world  
Prison doors are open wide  
See the world you need it You were born with something special  
You were forged in open fire  
Stop running away from things that might fail you  
You have what you need, you are the one
