

# Living a Lie (feat. Styles P.)

## Lachi

I am the truth  
Two parts vermouth  
I am vodka and olive juice  
But who are you  
Who are you You drink me down  
You drink me up  
Give you my all  
It's not enough  
But it makes me wonder You put on a show  
But you ain't so tough  
Mad because I know  
Would call out your bluff  
But you drink me down  
You drink me up  
So I get you high  
But you're living a lie  
Said you're living a lie I see your mask  
Through my reflective glass  
So excuse me but I gotta ask  
Well who is that  
Who is that You look me down  
You look me up  
I try to give you what you want  
But it makes me wonder You put on a show  
But you ain't so hot  
Mad because I see  
For what you got  
But you look me down  
You look me up  
So I trick your eyes  
But you're living a lie  
Said you're living a lie Rap  
I know you living a lie  
I got G sense  
Anything you saying or doing  
Is false pretense  
Got legs to stand on  
But your knees bent  
You ain't cool

Can't even be decent Yeah you real, real fake  
Something like a worm or a real snake  
You perpetrating and bluffing  
Your word is your bond  
But your word ain't worth nothing Yeah you shoulda been a actor  
Cause anything you say or do  
Couldn't be a factor So go ahead keep getting by  
But remember when you die though  
You living lies
