Cross The Line

Down With Webster

(Chorus):
I've got a million and one, reasons never to talk to you
My friends, they think I've lost my mind
I don't stop I'm just running and running and running and running and running and running
I never cross the line
(Verse 1):
Last week you got with Billy
'fore that it was Jack and Timmy
And I got you back with Jenny
It doesn't really count I drank Jack and Henny
Girl you should be in prison
I'm making down my mission
I try to tell you I'm leavin', but shit, you never listen
You want my money, now my money's all gone
But I forget when we're dancing, I'm all song
And I swear on this red cup, that girl I'm so fed up
My friends give me heads up, and you just won't let up
(Chorus): x2
I've got a million and one, reasons never to talk to you
My friends, they think I've lost my mind
I don't stop I'm just running and running and running and running and running and running
I never cross the line
(Verse 2):
Can we keep this on the low
There's no telling how far I can go
You got the mic and I'm on your show
You can push me over like a domino
I'm trying not to step all on your toes
And leave my prince for your fancy clothes
But I thought that I was the one you chose
I thought that I was the one who knows

Secrets you don't tell your friends
But it looks like the joke's on me again
Laugh it up, and watch me pretend
That the race is over and I can see the end
I know exactly what's in store
Being with you is such a chore
Used my heart to mop the floor

I know it's bad, but I still want more
(Chorus): x2
I've got a million and one, reasons never to talk to you
My friends, they think I've lost my mind
I don't stop I'm just running and running and running and running and running and running
I never cross the line
(Verse 3):
I take one step forward, and two steps back
I can see you're made of stone, and you're never gonna crack
I take one step forward, and two steps back
I can see you're made of stone, and you're never gonna crack
Can't get it?
Let it go
Can't get it?
Let it go
Can't get it?
Let it go
If I can't get it
Let it go
Can't get it?
Let it go
Can't get it?
Let it go
Can't get it?
Let it go
But I can't say no
