

Teachers (Palm Springs Demo)

P.O.D.

Lock it down
Overthrow all the pirates
And get out of town
Can you see them smiling?
Blisters, these bones are breaking
Whispers are louder than screaming
We suffer this moment
Until the day is coming
That we'll reign forever
Training day
Cause I-Man is coming and we are the teachers
Training day
Been through the fire cause we the pioneers
Training day
Soul of the Lion, Jah love for the bleeding
Training day
Warriors, SoulJahs we still believe you! Crawling through poison ivy
My soul still flies with broken wings
And the sun is blinding. I can't stop staring
I don't want to close my eyes
Righteous respects, it's the best-kept secret
I can let go of my burdens that keep me
From living so I can start dying
Training day
Cause I-Man is coming and we are the teachers
Training day
Been through the fire cause we the pioneers
Training day
Soul of the Lion, Jah love for the bleeding
Training day
Warriors, SoulJahs we still believe you! Crawling through poison ivy
My soul still flies with broken wings
And the sun is blinding. I can't stop staring
I don't want to close my eyes
Righteous respects, it's the best-kept secret
I can let go of my burdens that keep me
From living so I can start dying
Training day
Cause I-Man is coming and we are the teachers
Training day
Been through the fire cause we the pioneers
Training day

Soul of the Lion, Jah love for the bleeding
Training day
Warriors, SoulJahs we still believe you!
