

# Blue Rain In Africa (feat. Mato Nanji)

## Otis Taylor

I saw a white, white buffalo  
On the cold ...the colder plains  
When I was very, oh  
When I was very young  
Must have been, must have been  
On the television Oh there must be, blue rain in africa  
There must be, blue rain in africa[Guitar break]  
Well I saw, a white buffalo  
Oh, yeah, on the dakota  
So there must be, blue rain in africa  
Oh there must be, blue rain in africa[Guitar solo]  
I saw the eagle, I saw him flying  
At night,  
I saw the eagle, I saw him flying  
At night There must be, blue rain in africa  
There must be, blue rain in africa And my dream, oh, my dream.
