

# I Live To Fall Asleep

## Manic Street Preachers

I live to fall asleep  
It's when I stop the hate  
I never want to dream  
It infiltrates beauty I live to fall asleep  
Regenerate and sin  
Skin so tense gives in  
I've lived enough to kill When did you become another distant friend?  
Everyone who loved you stayed waited till the end  
When did you become another distant friend?  
Everyone who loved you stayed waited till the end Oh, when did you decide that sleep could save your life?  
How could you become another boy struck dumb?  
How could you become another boy struck dumb with love? I live to fall asleep  
I live to fall asleep I live to fall asleep  
It helps me through the day  
Drink has never dulled  
A pain so deep does run I live to fall asleep  
Serene alone happy  
Holding on to screams  
Waiting for the time When did you become another distant friend?  
Everyone who loved you stayed waited till the end  
When did you become another distant friend?  
Everyone who loved you stayed waited till the end Oh, when did you decide that sleep could save your life?  
How could you become another boy struck dumb?  
How could you become another boy struck dumb with love? I live to fall asleep  
I live to fall asleep So lazy, lazy, lazy, chuck down all the pills  
Needing to remember how and why to live Oh, when did you decide that sleep could save your life?  
How could you become another boy struck dumb?  
How could you become another boy struck dumb with love? I live to fall asleep  
I live to fall asleep
