Good While It Lasted

Sawyer Brown

Love doesn't die, it just stops talkin'
There's no good-bye, you just start walkin'
Out into the chill of the night
Wonderin' if your timin' was right
But you still can't denyIt was good while it lasted
We had it all for a minute or two
And there's no other place
Where the best that two dreamers can do
Turns out too good to be trueWe really did it this time, there's no returning
We lit up the sky and went down burnin'
If we're burned a little too bright
You showed me what beautiful light
You still can't denyIt was good while it lasted
We had it all for a minute or two
And there's no other place
Where the best of two dreamers can do
Turns out too good to be trueThere's a star
(Up above the world so bright)
Fallin' fast
(Will we ever get it right)
Make a wish
(Wish I may, I wish I might)
Have you back again for one more nightIt was good while it lasted
We had it all for a minute or two
And there's no other place
Where the best of two dreamers can do
Turns out too good to be true
Too good to be true
